radishes

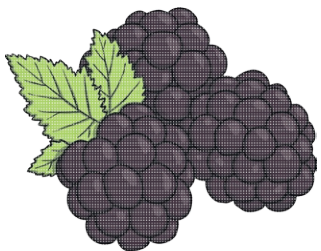

papayas

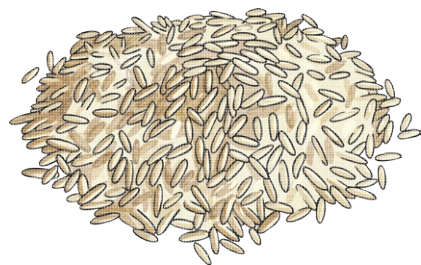

mangoes

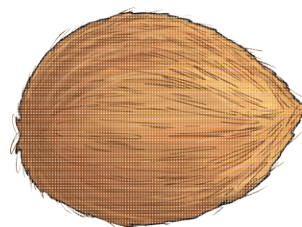

broccoli

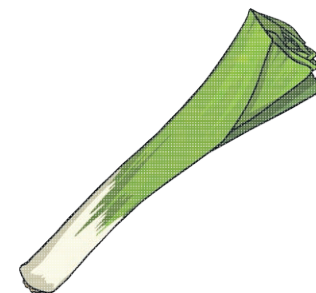

blackberries

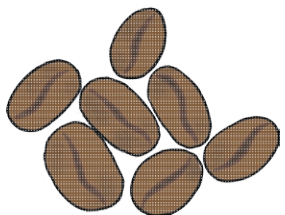

rice

coconuts

leeks

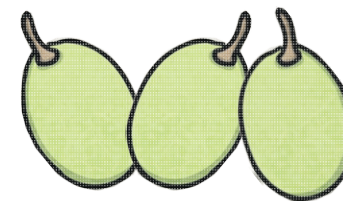

coffee

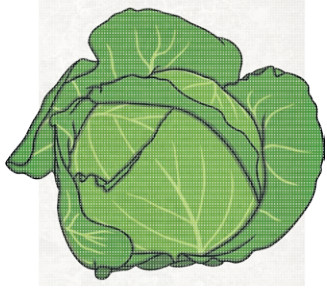

mushrooms

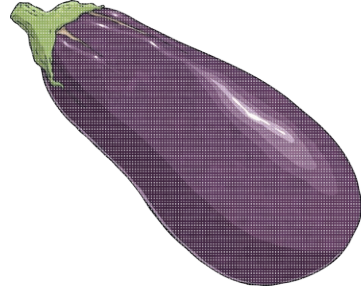

lettuces

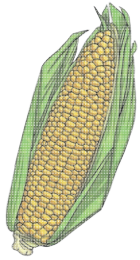

olives

cabbages

aubergines

corn

Answers

Please note: Although it might be possible to grow some of the crops that are in the abroad category in the UK, this would most commonly be in a greenhouse in conditions replicating conditions in other warmer climates.

Grown in the UK

peas
rapeseed
cherries
raspberries
strawberries
apples
potatoes
onions
blackberries
radishes
